

# Introduction to Inclusion

---

Saturday, June 1, 2013  
9:00am-12:00pm

Join us for an interactive presentation. Participants will learn how to develop a philosophy of inclusion. Learn strategies to implement that philosophy, and resources to learn more. This workshop is free and a certificate of completion will be provided.

Presented by: Alexis Filippini

Alexis Filippini's strengths-based approach to student success grows out of her previous work as a reading intervention teacher and a behavioral clinician. Currently, she brings her fun and practical workshops directly to teachers and families through *Building on the Best* and is also the associate dean of teaching and learning, K-8, at the Bentley School. She earned her Ph.D. in special education with an emphasis in cognitive science from U.C. Santa Barbara.
